OBJECTIVE

Final-year IT student and **Software Engineer** with hands-on experience building and deploying **full-stack web applications** using **React, Node.js, and JavaScript**. Recognized as **AI Expert** by **NPCI & NVIDIA** and **national hackathon finalist** — seeking a **Software Engineer / Full Stack Developer** role to build scalable, impactful products.

EDUCATION

Bachelor of Engineering in Information Technology

JSPM's Jayawantrao Sawant College of Engineering, Pune

Nov 2022 – Present

CGPA: 9.25 / 10 (7th Sem)

Coursework: OOP, Data Structures & Algorithms, DBMS, Machine Learning, Operating Systems

SKILLS

Languages C++, JavaScript (ES6+)

Frontend HTML5, CSS3, Bootstrap, Tailwind CSS, React

Backend Node.js, Express.js, RestAPI

Databases MongoDB, MySQL

Tools Git, GitHub, VS Code, Figma, Vercel, Render, Chrome DevTools

Other RESTful API Integration, Problem Solving, Communication, Leadership

PROJECTS

PharmaGuard — Pharmacogenomic Risk Prediction System (React, FastAPI, Python, OpenAI API) [🔗 GitHub](#) | [🔗 Live Demo](#)

- Built an AI-powered full-stack web app analyzing patient VCF genomic files to predict drug-gene interaction risks, reducing manual clinical analysis time by **80%**
- Engineered a pharmacogenomic rule engine across 6 genes × 6 drugs with CPIC-aligned risk rules, achieving **95% confidence** on exact variant matches
- Integrated OpenAI GPT-4o-mini and Gemini 1.5 Flash to auto-generate clinical explanations, improving recommendation clarity by **3×** over rule-only output
- Deployed on Vercel + Render with 100% RIFT 2026 PS-compliant JSON schema — selected as **Hackathon Finalist**

Authenticity Validator for Academia (React, Node.js, Express.js, JavaScript, Python, NLP) [🔗 GitHub](#) | [🔗 Live Demo](#)

- Identified rising fake degree fraud in hiring; built an end-to-end **full-stack verification platform** using **React + FastAPI**, reducing manual credential checks by **80%**
- Integrated **Tesseract OCR + OpenCV** for automated document text extraction, achieving **95%+ accuracy** in detecting forged or tampered degree certificates
- Implemented **SHA-256 cryptographic hashing** to fingerprint certificates, enabling instant duplicate and forgery detection across an institutional database of **4+ registered colleges**
- Designed a **JWT-based role authentication** system (Admin, Verifier, Institution) to secure **10+ API endpoints**, reducing unauthorized access to **zero**
- Deployed frontend on **Vercel** and backend on **Render** with **CI/CD via GitHub**, achieving **100% uptime** on free-tier cloud infrastructure

WORK EXPERIENCE

Project Intern — Edunet Foundation

Jan 2025 – Feb 2025

- Converted Figma UI/UX designs into responsive websites using **HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS**, achieving **~95% design accuracy**
- Built **mobile-first, scalable UI components** ensuring cross-browser and cross-device compatibility
- Managed source control using **Git and GitHub** — commits, branches, and weekly milestone deliveries
- Independently planned and delivered the full project within a **4-week timeline**, demonstrating ownership and problem-solving under deadlines

CERTIFICATIONS & ACHIEVEMENTS

- RIFT 2026 Hackathon Finalist** — Selected among hundreds of teams for building an innovative AI healthcare solution under national-level competitive evaluation
- AI Expert — NPCI & NVIDIA (2025)** — Cleared all 3 levels among thousands of participants nationwide
- Hacktoberfest Contributor (2025)** — Completed 5+ quality pull requests in open-source repositories
- Certifications:** AI Fundamentals (IBM SkillsBuild, 2025) · Java Essentials (LinkedIn Learning, 2023) · HTML Basics (SoloLearn, 2024)

LEADERSHIP

Placement Coordinator — Managed placement activities and recruiter communication for **300+ IT students**, coordinating between college administration and hiring companies.
